Fergus for the Finest

*A Personal
Invitation*

**to those
who will accept**

no compromise!

There are **BORGWARD** dealers at your service the world over

You are most cordially invited to test ride a Borgward car whenever it's convenient for you.

Borgward is no newcomer in the automobile industry. Born in 1890, Carl Borgward was a well known designer and inventor by 1919 and everything he ever did was governed by his determination to build his own car some day. The Borgward group got their chance in 1929 when they acquired control of the Hansa-Lloyd works in Bremen, Germany. They have always had one ideal: "To make a car that would embody the finest achievements in the industry". That ideal has never wavered.

This year Borgward presents a full line of Family Sports Cars. Smartly styled the new Isabella models include the Coupe-Sedan, Station Wagon, Sunroof, full Convertible and the fabulous Touring Sports. Two 4-cylinder engines to choose from, 65 and 82 BHP, ensuring high cruising speeds in the seventies and eighties. You will be delighted with the economy too! — up to 35 miles per gallon.

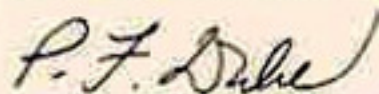

Excellent overall construction—body and chassis (frame) being welded in one unit gives greater strength and rattle-free performance during the entire life of the car. You will also enjoy the amazing comfort of the independent 4-wheel suspension.

The fifteen cubic feet trunk is ample for the luggage of your entire family, plus for long trips, you can get a metal rack on top of the sedan or station wagon for only a few dollars extra.

I can promise you that it will be a thrilling pleasure to test drive a Borgward. Come to see us soon, will you?

Sincerely yours,

FERGUS IMPORTED CARS, INC.

P. F. Dabe, President.

You can see these popular Borgward Models at Fergus showrooms pictured on the back cover.

...or your nearest Borgward Dealer
