### BORGWARD - GOLIATH - HANSA - LLOYD MEETING

**13 - 15 MAY 2016**

**At Namen (Namur)**

Dear Borgward friends,

We kindly invite you, your family and your friends at our 32nd International Annual Meeting for Borgward, Goliath, Hansa and Lloyd enthusiasts.

This year we have selected the city of Namen, a city with a citadel, escargots, Félicien Rops, the Capital of Wallonia and of the Province that carries the same name. During our meeting, we will visit a.o. the Citadel of Namen, and we will have a beer tasting session at the Abbey of Maredsous.

Namen is situated at about 60Km to the south of Brussels, and lies where the Sambre flows into the Maas river. The city has a lot to offer to its visitors. There are many historical buildings, museums, restaurants and cafés, as well as a web of small alleys. Namen is also known to be a shopper's city, with several kilometers of pedestrian shopping streets, and a very cosy market on Saturday morning.

The Citadel of Namen is built on a 100m high hill, above the city of Namen, and was already used as a fortress during the Roman period. It has been besieged and damaged (or destroyed) at many occasions over the past 2000 years. The current citadel was built during the Dutch period.

De Benedikt Abbey of Maredsous was founded in 1872 and is well known for its cheeses and beers. Every year, the Abbey receives some 500.000 visitors. It's one of the few remaining locations where the cheese still ripens in the cellars of the original buildings.
